

# NATIONAL GOLD EDUCATION PROGRAM

Free gold resources for primary and secondary schools across Australia

## Gold Class Sessions

Engage your students with real-life challenges run by gold industry professionals! During each interactive session, passionate workers will teach students all about gold, its value, relevance and diverse opportunities, through hands-on Science, Technology, Engineering and Mathematics (STEM) activities. Facilitators will also provide students with a unique insight into their role and experiences, as well as the myriad of career pathways available in Australia's gold industry.

Each free, one-hour session can be presented to a single class of up to 32 upper primary (Years 4-6) or lower secondary (Years 7–10) students.

#### **BOOK NOW**

Visit education.goldindustrygroup.com.au to book your free Gold Class Session.

## Gold Resources Kits

When a Gold Class Session is booked, schools will receive a free, exclusive Gold Resources Kit. Each unique Kit contains large rock and gold samples from gold mines in Australia, as well as a variety of classroom materials and teacher resources linked to the Australian Curriculum.

Schools currently not within the areas of service for Gold Class Sessions can order a complimentary Gold Resources Kit.

#### ORDER NOW

Visit education.goldindustrygroup.com.au to order your free Gold Resources Kit.

# Heart of Gold Australia app

The free Heart of Gold Australia app features more than 30 golden experiences to be explored across the country, including historic landmarks, famous attractions, and exciting tours!

The interactive Perth and Kalgoorlie #heartofgold Discovery Trails provide a fun, virtual experience for students to learn about the rich history and importance of gold to the development of Australia. The trails combine learning with technology and the outdoors, taking students through time on an adventure of discovery from modern day mining to early gold rushes. Augmented reality games, remarkable audio visual stories, fun widgets and timeless photos will keep students entertained until the very last step. Available via the free Heart of Gold Australia app, the trails can be 'walked' virtually from anywhere, making them a terrific classroom activity or at-home experience.

In addition, the app includes the Discover Gold Game, a fun way for students to test their knowledge and learn various uses of gold in everyday life.

#### DOWNLOAD APP

Download the free Heart of Gold Australia app from the **App Store** or **Google Play** to your classroom devices to begin. *Important: Make sure the bundle in the app is downloaded to start.* 

# Further Learning

Lessons plans linked to the Australian Curriculum, developed by Australian Earth Science Education and Educated by Nature, offer students further learning in addition to the Heart of Gold Discovery Trails. These are available in Humanities and Social Sciences (HASS), English and Mathematics for Years 5 and 9, and Science for Years 4, 5, 7 and 9. Additional gold educational facts, resources and activities, such as the Careers in Gold poster and Discover Gold In Your Life booklet, can be downloaded and ordered from the Gold Industry Group website.

To request Gold Industry Group attend a Professional Development Day or educational event, please call (08) 6314 6333 or email info@goldindustrygroup.com.au
